Critical Information Summary

Tablet Plan — Sky5G Australia

Information about the service

Tablet Plan is a prepaid 5G home internet service — Use in your tablet. It is paid for in advance in periods of 30 days: your service is active while you have prepaid days left and pauses when they run out, until you reload. There is no fixed-term contract and no exit fee.

- Plan: Tablet Plan
- Included: Unlimited data
- Plan period: 30 days
- Delivery: 5G home internet via a SIM in a compatible modem, or a boxed modem with a pre-installed SIM

Availability depends on Sky5G coverage at your address. 5G is a shared wireless network, so coverage, speeds and performance depend on your location, distance from a cell, network congestion, weather and your equipment, and will vary from time to time.

Information about pricing

- Price: $10 per 30-day period (includes $0.91 GST)
- Vouchers: a voucher adds dollars of value. On this plan, $10 of value buys 30 days and a smaller voucher buys proportionally fewer, in whole days. You see the exact days before you confirm
- Minimum total cost: $10 for one 30-day period
- Approximate cost per day: $0.33

The service is prepaid, so the minimum and maximum you can be charged for this plan is the price above — there is no minimum term, no monthly bill, and no early-termination or disconnection charge. You can stop at any time simply by not reloading.
